Raadpleeg en analyseer beide documenten om mijn prompt te verbeteren

ik heb dit momenteel """Uitgebreide Prompt

Make a DESIGN_GUIDELINES.md file with following criteria.

De Stijl: "Evening Espresso Bar" met principes uit Material Design 3 en Refactoring UI.

Technische vereisten/Ontwerp principes

Complete design combining Material Design 3 principles and Refactoring UI best practices and WCAG 2.1 (Web Content Accessibility Guidelines 2.1) so check out all three and analyse it.

Alle pagina's valideren correct, er zijn geen linting- of andere opmerkingen in VSCode zichtbaar.

De layout van je code is verzorgd

Alle pagina's zijn goed uitgewerkt en vormgegeven

Er zijn voldoende en duidelijke linken tussen de verschillende pagina's en niet alleen via de consistente en responsieve menu. Deze linken leggen jullie op een gepaste manier dus geen "klik hier"-linken

Alle pagina's zijn responsief en houden rekening met grote, middel en kleine (mobiele schermen)

Gebruik dit kleurenpalet en maak gebruik van color theory

#260701 (Almost Black)

#2F0E07 (Coffee Darkest)

#38160D (Coffee Darker)

#411D13 (Coffee Dark)

#5C3324 (Mahogany)

#653A2A (Mahogany)

#EDC4B3 (Cream Lightest)

#E6B8A2 (Cream Light)

#FFFFFF (Wit)

De document moet deze paginas hebben:
index.html - Homepage with video hero, featured products
producten.html - Products page with filtering
over-ons.html - About us page
contact.html - Contact page with form
vacatures.html - Careers page
winkelmand.html - Shopping cart page
Raadpleeg volgende documentatie
<https://m3.material.io>
<https://www.refactoringui.com>
Schrijf de richtlijnen in het Engels (zoals gebruikelijk voor documentatie), maar vermeld dat de website content in het Nederlands moet zijn. Voeg heel duidelijke (en veel) comments toe zodat het heel duidelijk is
.....

antwoord in dezelfde stijl/manier als ik mijn uitgebreide prompt heb gestuurd & zonder punten te gebruiken

Uitgebreide Prompt

Make a DESIGN_GUIDELINES md file with following criteria

Base the document one hundred percent on analysis of the existing DESIGN_GUIDELINES md and index html and ensure full alignment between theory and implementation

De Stijl

Evening Espresso Bar combining a warm premium coffee atmosphere with strong hierarchy depth and contrast

Use principles from Material Design 3 Refactoring UI and WCAG 21 and explicitly document how each principle is applied in the actual HTML structure and Tailwind configuration

Technische vereisten en ontwerpprincipes

Create one complete coherent design system that clearly explains and enforces Material Design 3 foundations including typography spacing elevation components and motion

Refactoring UI best practices especially around color usage contrast hierarchy and text

clarity

WCAG 21 accessibility requirements with explicit contrast ratios keyboard navigation touch targets and semantic HTML usage

The design guidelines must fully match the implemented index html including Tailwind color tokens typography scale spacing elevation shadows breakpoints and component behavior

Hero video overlay logic navigation structure product cards buttons forms footer and CTA sections

No inconsistencies are allowed between guidelines and implementation

All pages must validate correctly with no linting or accessibility warnings visible in VSCode
Code layout must be clean structured readable and well documented

Every section and component must include extensive comments explaining design decisions accessibility choices and responsive behavior

All pages must be fully designed and visually complete

No placeholder styling decisions everything must be intentional and documented

All pages must include meaningful internal links beyond the main navigation using descriptive link text never click here

Responsiveness is mandatory

Design must adapt for large medium and small mobile screens

Document breakpoint behavior layout changes typography scaling and spacing adjustments

Use the following color palette and apply strict color theory rules

#260701 Almost Black

#2F0E07 Coffee Darkest

#38160D Coffee Darker

#411D13 Coffee Dark

#5C3324 Mahogany

#653A2A Mahogany Light

#EDC4B3 Cream Lightest

#E6B8A2 Cream Light

#FFFFFF White

Explain clearly where and why each color is used including background surfaces text buttons hover states overlays and elevation contrast
Ensure all text meets at least WCAG AA and preferably AAA contrast

The document must cover and reference the following pages
index html Homepage with video hero and featured products
producten html Products page with filtering
over ons html About us page
contact html Contact page with accessible form
vacatures html Careers page
winkelmand html Shopping cart page

The design guidelines must be written in English as is standard for documentation
Explicitly state that all website content itself must be written in Dutch
Add very clear extensive and structured comments examples and explanations throughout the document so that another developer can fully understand reproduce and extend the design system

Use and reference the following documentation sources in concept and terminology
<https://material.io/>
<https://www.refactoringui.com>

The final result must read like a professional production ready design system that exactly matches the implemented website and enforces consistency accessibility and visual quality across all pages
